AI Product Developer | Full-Stack Engineer | Founder of ShiurBank

EXPERIENCE

AI Product Developer

May 2026 - Present

ArtScroll, Rahway, NJ

- Built an AI-powered Microsoft Word add-in that analyzes manuscripts and delivers explainable spelling and formatting suggestions validated against canonical ArtScroll data.
- Developed source-verification and citation-review workflows plus an indexed Hebrew-English text browser with reference parsing, full-text search, and fuzzy retrieval.
- Designed secure PostgreSQL/Supabase data models, corpus import and indexing pipelines, and regression suites that prevent unsupported AI corrections.

Founder & Sole Product Engineer

September 2025 - Present

ShiurBank (shiurbank.org)

- Designed, built, and operate a production web, iOS, Android, and phone platform for teachers to publish, manage, and monetize audio and video Torah content.
- Own the React and React Native clients, Node.js/Express APIs, PostgreSQL/Supabase architecture, authentication, authorization, media delivery, analytics, and production releases.
- Delivered teacher onboarding, private-series access, Stripe payments, Twilio call-in, archive migrations, analytics, and coordinated backend, web, and mobile releases.

AI Research Intern

June 2025 - August 2025

Shapiro + Raj, New York, NY

- Built multimodal OCR pipelines that converted PowerPoint slides, charts, and visuals into structured research summaries.
- Developed vector and metadata search plus LLM systems for longitudinal cross-document synthesis and thematic coverage analysis.

Capital Markets Intern

July 2024 - August 2024

Cushman & Wakefield, East Rutherford, NJ

- Automated deal-entry and transaction-email workflows for multimillion-dollar real estate deals, eliminating more than 200 hours of manual work.

SKILLS

Languages: JavaScript, TypeScript, Python, SQL, Java

Engineering: React, React Native, Expo, Node.js, Express, PostgreSQL, Supabase, REST APIs, Git

AI/Platforms: LLM applications, RAG, embeddings, vector and full-text search, OCR, Vercel, Railway, Stripe, Twilio

EDUCATION

Touro University

June 2026

Bachelor of Science in Computer Science

- GPA: 3.66, Dean's List; Executive Presidential Scholarship; President, Computer Science Club
